

## Montclair Plaza—HVAC Install Project

# More HVAC Replacements Before the Summer Heat

The **Montclair Plaza** is a large, multi-level indoor shopping mall that features 163 stores and well-known brand name shops. The Montclair Plaza opened in 1968 as the only indoor shopping mall in San Bernardino County. Since its opening, the Montclair Plaza has undergone many renovations.

C&L Refrigeration was given the assignment to replace six new 35-ton Carrier Rooftop Package Units. The weather had to be closely monitored to comply with the strict FAA flight plan. C&L was able to receive and prepare the HVAC units prior to the day of the replacement to minimize downtime.

### QUICK FACTS:

- Energy efficient: used all R-410A refrigerant, which is less harmful to the environment and has zero ozone depleting potential
- Professional certified air balance
- Safely managed a professional helicopter lift involving more than 18 separate lifts in one day
- Equipped with economizers and modulating power exhaust fans for saving energy

### About C&L Refrigeration

C&L Refrigeration has provided high-quality maintenance, engineering and construction service in the commercial and industrial air conditioning and refrigeration industry since 1978. In addition, C&L assists clients with air conditioning needs and in meeting EPA, AQMD and OSHA compliance standards. A family-owned business, C&L strives to encourage its 175 employees to take pride in their performance, understand each customer's needs and customize projects to meet those needs. With headquarters in Brea, CA and a branch office in Las Vegas, NV, C&L Refrigeration is strategically located to responsively serve all of California and Southern Nevada. C&L holds contractor's license in CA, NV, TX, AZ, NM, OR, UT, and WA, and in-house Professional Engineering license in CA, NV, AZ, TX, OR, UT, WA, and HI to support design and construction.
